EXPERIENCE

Fiverr, Bangladesh— *Python Developer*

FEBRUARY 2020 - PRESENT

Started a freelancing career with my coding skills in the midst of COVID-19 pandemic.

EDUCATION

Bangabandhu Sheikh Mujibur Rahman Science and Technology University, Gopalganj — *BSc.*

JANUARY 2017 - JUNE 2022

Finished my undergraduate. Concentrated in Electrical & Electronic Engineering.

Military Collegiate School Khulna, Khulna — *High School*

APRIL 2008 - JUNE 2015

Completed my high school level education from this institution.

PROJECTS

Web-based PLC Monitoring system — *(PHP, VUE.js)*
An easy-to-use web application to monitor remote PLC from anywhere in the world accessible through any device. I solved a very complex problem involving two-way communication and database synchronization.

Tabular Document Scanner App — *(Android, Firebase)*

An app to scan and convert handwritten tabular data into an excel file using cloud-based Machine Learning.

MCSK Online Admission — *(PHP, MySQL)*

We made a web application to apply for admission online. It featured an application process, a digital prospectus, image galleries, and application status.

SKILLS

Web Development

Python Programming

Microcontroller Projects

DevOps, Android

Cloud Computing

Design using Figma, Adobe XD.

AWARDS

Robo Carnival 2019 (Champion) at BUET for the best project in Project Showcasing.

Esonance 2017 at IUT for our group project "Autonomous Drone"

Best Science Fair Project 2014 at MCSK for building Online Admission System Project
